## **MANAGEMENT DISCUSSION AND ANALYSIS REPORT**

### **Overall review of the economy**

The performance of the Indian economy in 2009-10 greatly exceeded expectations. The overall GDP growth in 2010-11 has now been revised to 8.5% (against projections of 8.6%) with agriculture growing at 6.6%, services by 9.4% and industry at 7.9%. Though there is some slowdown in industrial growth, partly due to the base effect from the previous year, growth drivers of the Indian economy are broadly intact.

The global economic and financial situation is recovering slowly. The large fiscal deficits and high debt ratios coupled with slow economic growth have created unsettling conditions for business and have potential for causing great volatility in financial markets. It is hard to visualize strong economic growth in the advanced economies in 2010 and to a large extent in 2011. The implications of this, for India's strategy to return to the 9.0 per cent growth trajectory, are that public policy must promote business confidence and facilitate increased investment.

### **Industry Structure and Developments**

Non-Banking Finance Company's are the important entities engaged in the field of finance and investment, which is the primary business of your company. Interest rates are highly sensitive to many factors beyond the Company's control, including the monetary policies of the RBI, deregulation of the financial sector in India, domestic and international economic and political conditions, inflation and other factors. As a result, interest rates in India have historically experienced a relatively high degree of volatility. The availability of efficient financial services has been a key driver of business growth and profitability.

The discussion on the financial performance of the Company is covered in the Director's report.

### **Opportunities and Risk Management**

The company is in the process of implementing strategies to capitalize available opportunities. Financial conditions had improved sharply across the world and risk perceptions had turned more favorable. The company is consolidating its resources, which would be used for committing capital for future business activities. The company will keep examining and pursuing these new opportunities for growth.

The company regularly monitors liquidity and interest risk. Inflation has remained a major source of concern in the economy for more than a year. The overall inflation rate has remained at double digit levels for the past five months. The behaviour of inflation will also be a major concern for monetary authorities. The company's risk management process ensures that the management controls risks through means of properly defined framework. It is therefore necessary to tackle the problems with determination and develop a timeline to realise our objectives.

### **Segment wise Performance**

Investment and loans is the main business activity of your Company. Segment reporting as required under Accounting Standards-17 is not applicable as all the revenue income comes from a single segment.

### **Outlook**

The economic and financial situation is recovering slowly. The strengthening of the economic and financial recovery will help to sustain the higher growth rate. Focus on investment in the next fiscal year is likely to render India an attractive market that is well positioned to take advantage of both structural and cyclical gains while its strong domestic base is likely to limit the impact of external stress on growth dynamics and returns. Since the capital flows are expected to be moderate, they should not pose any problem to the management. The economic and financial scenario offers immense opportunities for it to grow in scale and reach coupled with value creation.

### **Internal Control**

The company has in place adequate internal control systems commensurate with the size and nature of its business. These ensure that all corporate policies are strictly adhered to an absolute transparency is followed in accounting and all its business dealings.

The internal control is designed to ensure that financial and other records are designed to ensure that financial and other records are reliable for preparing financial information and other reports, and for maintaining regular accountability of the Company's assets. The Company maintains a system of internal control, including suitable monitoring procedures and the adequacy of the same has been reported by its auditors in their report as required under the Companies (Auditor's Report) Order, 2003.

The company ensures adherence to all internal control policies and procedures. A qualified and independent audit committee of the Board, comprising the independent directors reviews the adequacy of internal control.

### **Human Resources/ Industrial Relations Front**

The Company fully values the Human Capital and continued to have the cordial and harmonious relations with its employees and there has been no material development on the Human resource / Industrial Relations front during the year. It has been the consistent endeavour of the Company to create a congenial and challenging working atmosphere wherein every employee can develop its strength and deliver to his full potential. The Company considers the contribution of all employees towards the growth of the company without which the achievements made would not have been possible. The Company also considers the quality of its human resources to be most important asset and constantly endeavors to attract and recruit best possible talent.

### **Cautionary Statement**

Statements in the Management Discussion Analysis Report describing the Company's objectives, projections, estimates, expectations or predictions & contains forward looking statement within the meaning of applicable rules and regulations. It contains forward looking statements which are made in good faith based on the information available at the time of its approval. It is believed that the expectations reflected in these statements are reasonable but they may be affected by a number of risks and uncertainties that are inherent in any forward looking statement which could cause actual results to differ materially from those either expressed or implied in the statement depending on circumstances.

## CORPORATE GOVERNANCE REPORT

For the Year 2010-2011

### 1. Company's philosophy on Code of Governance
